ANNUAL REPORTS EXECUTIVE POSTIONS

<http://kings.nstu.ca/>

Year: 2014-2015

Executive Role/Title: First Vice President

Highlights from the year: This year brought several changes to the face of Kings Local. Pamela Langille, our immediate past First VicePresident, to a position with the Executive Staff of the NSTU following resolutions being drafted and sent to the Local General Meeting for approval. The Kings Local Contingent to Annual Council spoke eloquently and passionately to represent our members, although our resolution around Naturopathic treatments was defeated on the floor, the increase in awareness was noted and our members should be proud to be represented by such dedicated colleagues.

Moving Forward: We will soon be entering into negotiations provincially so please keep a eye on your NSTU email as this is the conduit for information from the NSTU. We will also soon be building an asking package for our Regional Agreement. Starting in the fall we will be asking for items to bring to the Regional Economic Welfare Committee (REWC) as they build our regional asking package, but if you have any questions, please feel free to ask any time. I hope to offer a brief session in the fall around what types of things are part of a regional contract as compared to a provincial one. If this interests you, stay tuned to the Kings Local Website and Facebook Page for more information.

Have a Great Summer!
Jo-Leigh MacPhee
First Vice President

Kings Local NSTU
